

SATELLITE

KEY POINTS

- Adjustable retraction via nitrogen ball
- Rotor with 3 retractable cutters on treated bushes
- 400 mm diameter thrust disk
- Sensor system
- Depending on adaptation, can be mounted onto **Vini-Cut** - **Arbo-Cut** - **Exel-Cut** - **Master-Field** - **NET-COUCPE**

SPECIFICATIONS

WORKING WIDTH	(MM)	750
Frequency of rotation	(rpm) at 50 L/min	1900
Side used		Rear right
Work rate req'd	(L/min)	40 to 50
Max. pressure	(bars)	200
Tractor equipment required		1 S.A. + 1 free return to tank
Type of retraction		By cylinder and Nitrogen ball
Rotor		3 removable cutters
Cutting configuration		N° 2
Cutting height	(mm)	60
Tracking of terrain		Spring-loaded mechanical tilting +10° / -10°
Weight	(kg)	103
